

## FloraTal™ 93

---

### Description:

FloraTal™ 93 is a tall oil fatty acid that contains a moderate amount of rosin acid, but still has high fatty acid content. Due to the higher color and rosin content, this product may offer cost advantages over other TOFA products. It can be used in place of oleic acid and other vegetable and tallow-based fatty acids as a functional equivalent product.

FloraTal™ 93 can be used in applications such as industrial and household cleaners, lubricant additives, emulsifiers, and alkyd resins.
